Executive Skill
Enhancement Programme

Executive Skill Enhancement Programme

Digital India a flagship programme of Government of India, aims to transform India into a digitally empowered society and knowledge economy. In the context, Government of India is committed to realize the potential of North East states and accelerate its progress. Skill Enhancement Programme (SEP) is one such initiative taken by Government of India for implementation of e-Governance projects by building capacities in the North East region.

Background

Many e-Governance Projects in the North East region are under the initial phase of implementation, and it is imperative to build the necessary capacities in the Government to handle e-Governance projects.

SEP aims to develop e-Governance champions within the Government at state level to lead and manage MMPs under NeGP or other e-Governance project execution.

It also facilitates a broad understanding of factors that result in success of e-Governance projects and participants learn application of knowledge and skills on e-Governance projects.

Skill Enhancement Programmes (SEP)

Likely outcome of the programme, is to develop e-Governance Executives within the Government at the State level to lead and support Mission Mode Projects (MMP) under the NeGP or other e-Governance projects.

The officials who will participate become the virtual cadre for North East States as and when constituted by respective states. In that context,

this programme will help to enhance the skills of the North East State Officials.

Executive Skill Enhancement Programme (ESEP)

Programme Objectives

- Create awareness about the need, benefits and challenges of the successful implementation of e-Governance Projects under e-Kranti (NeGP 2.0)
- Provide a holistic and in-depth understanding of the key activities, challenges and related solutions for e-Governance
- Present frameworks and methodologies related to various aspects of e-Governance project design and management
- Stimulate government officers to experience and learn from the successes, failures, best practices of e-Governance projects in India.
- Provide the necessary ingredients to the participants for enabling them to lead e-Governance initiatives in their respective departments

Course Overview

ESEP course components include Conceptual learning, Case Studies, Best Practices, Group discussions and field visits.

Broad Course Coverage
